

RECARO Style, Style XL

NEW New, easy-to-operate switch pack:
now with a fully electric RECARO Airmatic® setting.

Lumbar support provided by the RECARO Airmatic® system: separate air chamber settings, individual backrest adjustment (new: electrically adjustable)

Climatic package: heated seat and RECARO Vent® (optional)

Bearing-mounted seat cushion reduces road vibration

Seat cushion extension: better thigh support to relieve muscle tension

Photo includes options

Standard equipment: RECARO Airmatic®, height adjustment with combined tilt setting.

Options at additional cost: Comfort package (RECARO Vent®, seat heating and electric seat back adjustment).

**RECARO Style for average-sized driver
Extra high backrest (RECARO Style XL)
for the much taller driver**

Fully upholstered headrest, adjustable for height and tilt providing optimised crash protection

NEW RECARO Style XL: 60 mm higher than RECARO Style. Backrest + 40 mm, headrest extends by 20 mm

Contoured shoulder area to relieve muscle tension

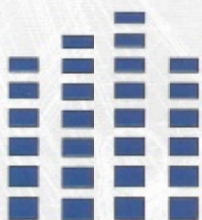

Handwheel for backrest adjustment on both sides (electrically adjustable if comfort package is selected)

Adjustable side bolsters: optimal side support prevents muscle tension

Backrest tilt-forward release on both sides for easier operation

Electric height adjustment with integrated tilt adjustment: correct body angle, the best possible angle of vision; touch control switch element

**RECARO Style XL:
+ 60 mm higher**

Design must be functional – perfect symbiosis of comfort and design.

The RECARO Style appeals to demanding individualists for whom lifestyle doesn't stop at the car door. Revolutionary technology, a maximum of comfort and optimum safety – packed in an attractive sporting design.
